Our products include: flea and tick control, worming, calming and behavioural products as well as dental, joint care and more, because pets are family too. To view the range [click here](#).

Short description:

Continuously releases an insecticide that kills fleas and prevents their return for up to four months. Effective, comfortable and fashionable flea control, which can be adjusted to fit. Suitable for cats from 12 weeks of age. UK authorised veterinary medicine.

Long description:

The Beaphar Soft Cat Flea Collar contains an insecticide that kills fleas on your cat and prevents their return for up to four months. This comfortable fabric collar has been fitted with an elastic safety link. The safety link is designed to stretch if your cat gets caught while out and about, enabling them to slip their head out. The collar can also be adjusted to fit any cat.

The Beaphar Soft Cat Flea Collar has a fabulous velvet finish and an optional silver bell.

Suitable for cats and kittens from 12 weeks of age.

95% of the flea's life cycle is in the home. When tackling a flea problem, in addition to treating your pet, always use a household insecticide, such as Beaphar FLEAtec Household Flea Spray or Beaphar Household Flea Fogger for your home.

Benefits:

- **KILLS FLEAS FOR UP TO 4 MONTHS:** Contains an insecticide that kills fleas on your cat and prevents their return for up to 4 months.
- **COMFORTABLE FABRIC COLLAR IN A VELVET FINISH**
- **COMPLETE WITH SILVER BELL AND ELASTIC SAFETY LINK:** The safety link is designed to stretch if your cat gets caught while out and about, enabling them to slip their head out. The collar can also be adjusted to fit any cat.
- **SUITABLE FOR CATS AND KITTENS FROM 12 WEEKS OF AGE**
- **UK AUTHORISED VETERINARY MEDICINE**

For best results:

For continuous protection, fit a new Beaphar Soft Flea Collar every four months.

Ingredients:

456 mg (18% w/w) Permethrin

Instructions:

ALWAYS FULLY READ THE PRODUCT PACKAGING BEFORE USE.

Do not remove the collar from the pack until you are ready to use the product.

1. Fasten the collar around your cat's neck (coloured side facing outwards) leaving enough room to insert two fingers between the collar and neck. Do not fit too tightly to prevent irritation, but do not fit too loosely or your cat may be able to get a foot or tooth under the collar and become caught up attempting to remove it.
2. Cut off any collar sticking out beyond the buckle. Wrap this cut-off in a bag and throw it in your dustbin.
3. Remember to periodically check and loosen the collar if fitted to a growing cat

Legal Category:

Use medicines responsibly. Beaphar Soft, Velvet Flea Collar for Cats contains Permethrin AVM-GSL. Further information is available from the SPC or email info@uk.beaphar.com
