

ADULT >15 months Maine Coon 31

© Lancelau

Supporting cardiac function

Helps support and maintain heart health; adapted levels of magnesium, sodium, potassium, arginine, EPA & DHA, taurine, L-Carnitine and antioxidants (Vitamins E and C, and green tea and grape polyphenols).

Supporting the joints

Helps support the joints of a powerful skeleton.

A healthy skin and a beautiful coat

Helps reinforce the «barrier» role of the skin, and reveals the natural beauty and colour of the coat due to the use of fatty, linoleic and amino acids, as well as zinc, biotin and vitamins.

Special large jaw

Emerald 10, a kibble specially adapted for the Maine Coon's enormous jaw, encourages good oral-dental hygiene.
